Terms we use in this document

There may be some terms we refer to in the document that you may not be familiar with. We give you the meaning of these terms in the table below.

Terminology	Description
Prescribed Minimum Benefits (PMBs)	A set of conditions that all medical schemes must provide a basic level of cover for. This basic level of cover includes the diagnosis, treatment and costs of the ongoing care of these conditions.
Related accounts	Any account other than the hospital account for in-hospital care.
Scheme Rate	This is how much the Scheme will pay, and is based either on a rate determined by the Scheme or a specific negotiated rate with the healthcare professional.
Board of Healthcare Funders (BHF)	Board of Healthcare Funders (BHF) is the representative organisation for the majority of medical schemes throughout South Africa.
Shortfall	Anglovaal Medical Aid Scheme pays designated service providers at the Anglovaal Scheme Rate. If the doctor's rates are higher than the Scheme Rate, the member will have to pay the outstanding amount.

Your cover for your hospital stay depends on the type of delivery

You have cover for your delivery from your Hospital Benefit, once approved. Where we confirm cover, we will give you an authorisation number to use when booking your bed at the hospital.
